School Disciplinary Rules, Preventive and Corrective Measures

Using appropriate methods of discipline that incorporate behaviour management enables the young child to learn self-control and gain an understanding of the types of conduct that are acceptable. Children become more independent and self-sufficient when they take responsibility for their own behaviours. Self-discipline, learned during the childhood years, is necessary in order to become a productive member of our society. It is our goal that all students possess a clear understanding of their behaviour that affect others. When a child acts in a thoughtless or harmful way, the community suffers. When misbehaviour occurs, our approach will emphasize

- compassion,
- consistency and
- responsibility.

Aims and Objectives

- Develop student's empathy and their moral and ethical character and enhance their sense of good citizenship.
- Increase and raise student's behaviour awareness and encourage them to respect themselves and others all well as the school and public laws.
