"Once you choose hope, anything's possible"

-Christopher Reeve

Dear Students and Parents, Greetings of the month!

Last year we have faced changes and challenges, we were perplexed with the situations and have gone through major highs and lows. At times, we have found ourselves at a juncture where we had to make many life changing decisions with very less time left to process, but slowly we started seeing an order in the mess, helped ourselves and others. We all tried to stand for our family, supporting each other and we were able to arrive at various solutions jointly. What can be best seen here is we gradually learnt to value life. Most importantly, we took care of our health and finally now here we are, much stronger, resilient and with complete conscientiousness. Each and every individual was hit by the high tides of this pandemic. We see few of our families undergoing this pandemic attack and some just came out of it and some are still trying to reach to the shore but the superhumans are busy saving lives. Yes, such extraordinary people are amongst us as health workers, as support staff, office staff, teachers and technicians. I would like to quote some parents and teachers also who are nothing less than the frontline warriors. Somehow we learnt and prepared ourselves to expect the unexpected. It is now time to get into action and beat this phase, teach our young children the art of living beyond all struggles. Let's teach our children to be hopeful and always keep their inner light spark.

There are lots of new systems adopted and academics planned in a flexible approach out of which few I will mention in this edition and rest in coming months-

I take immense pride, dear Parents, to put across the extensive plans which will be strategically implemented during upcoming months. A few processes which have been introduced this year to keep the teaching learning process interesting and engaging are outlined here.

Introduction of Coach and Tutorials for board classes-

We have planned to have weekly once coach and tutorials for board classes so that their topic wise revision can be taken. These classes will be other than their routine time table.

Support session and early interventions-

The identification of students who require reinforcement and practice, as well as concepts that require repetition will be an ongoing process throughout the academic year. Especially for the students who will be appearing for Board exams at the end of the year, remediation will happen round the year. Students and Parents are also welcome to get in touch with the Class Teachers and / or Subject teachers if they feel a need for repeating specific subtopics of chapters being handled, at any point of time

Introduction of STS[students class teacher session] once in a week-

Every class has been assigned a specific period in order to interact with the Class Teacher. This period will serve multiple purposes - as bubble time, as a time when students may freely and openly discuss issues with online classes, request for extra sessions, as a fun and games time, as a platform to identify talent and showcase talent, or to approach the Class Teacher in confidence, in case any assistance is required including battling stress and depression during these extremely difficult times.

Recommencement of class assembly

One of the highlights of the daily schedule at JVM were the assemblies conducted every day. It was during this time that the daily prayer, the thought for the day, the news highlights, the focus on the month, Teacher talk as well as subject-based presentations were planned, practised and executed. With the advent of online classes, we missed out on this crucial aspect of school life. We are happy to announce that the assemblies will be conducted on a class-wise basis, with all the segments and features as before.

Introduction of various JVM Elite clubs-

Students will get the opportunity to exhibit their talent through the various clubs and will get to meet many renowned experts of various fields.

Further developments and future plans will be shared in the upcoming month

"Eco System Restoration"

Date: 5 June,2021

World Environment Day is celebrated annually on 5th June and is the United Nations' principal vehicle for encouraging worldwide awareness and action for the environment. Environment has been an issue of significance as well as a concern and need to be addressed by the society at large. Developing a greater understanding of the core environmental issues among students, helps to inculcate desired ethics and understand the importance of preservation and protection of environment.

To sensitize students towards nurturing the environment, Jindal Vidya Mandir, Vidyanagar had celebrated "World Environment Day" on the theme "Eco System Restoration". Students engaged in activities and exhibited their creativity, confidence, competence and imagination, the school had conducted the following activities.

- * KG to Class 2 Plant a Sapling.
- * Class 3 to 5 Slogan writing.
- * Class 6 to 8 Poster Making.
- * Class 9 to 12 Make a Video on 'Save the Environment'

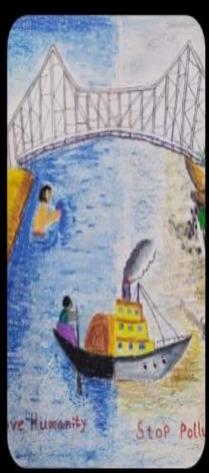

World Environment Day was celebrated with enthusiasm, the event was conducted successfully with whole hearted participation, and this has certainly made a difference to the way we view our environment.

Father's day celebration 2021-22

The contributions and sacrifices made by our father in our lives do not need a specific day for celebration. A father, who is our role model and superhero, is a special man who is a friend, parent, philosopher and guide who always protects us in every phase of our lives.

Father's Day is a day to honour all the fathers for everything they did for their children. This is an occasion to express gratitude towards their dad for all his love and support. Students of JVM celebrated Father's Day on a virtual platform on 20th June, 2020. It was a memorable event where the fathers and children would cherish for their lifetime.

Master Class

In JVM, we believe activity like Spark Plug lends students a chance to develop a sense of leadership, it also develops confidence among the students.

Master Class enables students to gain knowledge, awareness, and self-confidence. We conducted Master Class on 14th June 2021. We had invited masters from different schools and colleges.

Our Masters were: Ms. Yukti Siras – Counsellor, JVM

Ms. Vijayalaskhmi S.C.- Masters in social works, Teacher, JVM.

Ms. Syeda Faseha –Teacher Ikhlas English School, Shimoga.

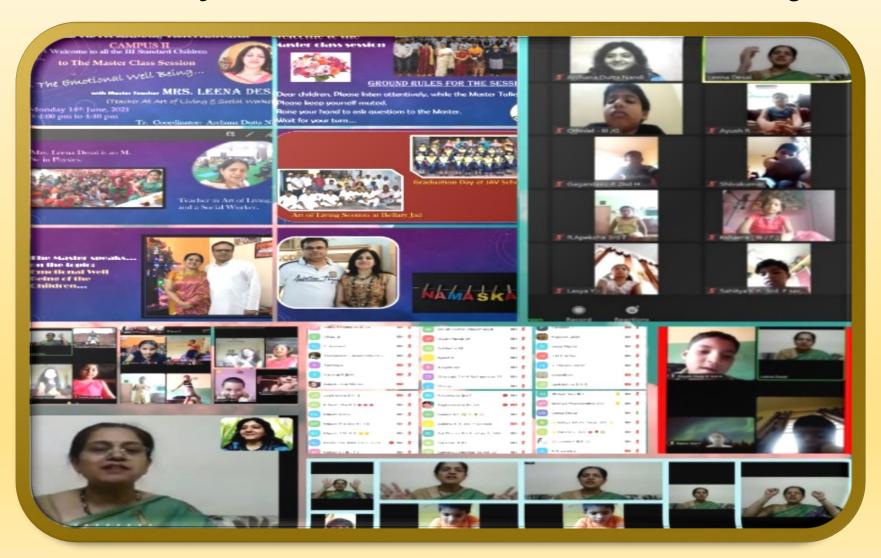

Ms. Leena Desai - Teacher, Art of Living.

Mr. Prashanth Patil- Psychiatric Social Worker, DIMHANS.

Ms. Rashmi – HOD, Maharani's Cluster University, Bengaluru.

Conglom

Cognitive conglom: Brain storming helps to build creativity and stimulate attention. Picture reading and storytelling Enhance ones Imagination and emotional well-being.

SOCIAL AND EMOTIONAL CONGLOM

Mentoring can help to speed up the on-boarding process by providing one-on —one support for everything from everyone. It's a great way to build trust and relationships from the get-go. It is important to help the new members of the community to get familiar with school culture.

Our newly joined teachers had witnessed a Conglom, organized by Jindal Vidya Mandir, with Dr. Shivaleela Lokesh on the topic-Social Emotional skills which was hosted for VIII grade students to develop the human values of kindness and empathy towards physically and mentally challenged people. Teachers and students were benefitted and learnt how human values are important in human life.

Key Take Away-Service to Humanity is a Service to God.

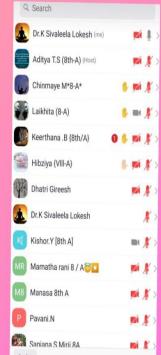

Social & Emotional

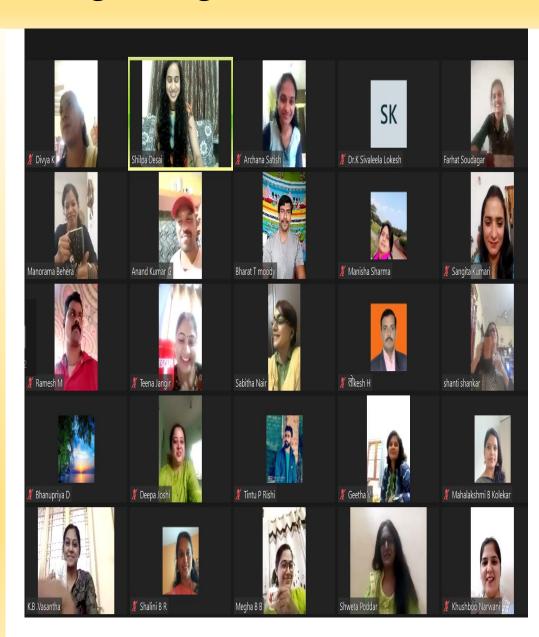

Captivating Congenial

- There is an inherent expectation that educators will work towards continuously, improving their practices and quality of teaching. Creating congenial atmosphere for teachers is as important as for children. A like-minded and benevolent work place would be a heaven when it is surrounded by affectionate teachers.
- JVM had gestured a warm congenial to welcome the new teachers whole heartedly. The congenial was full of enthusiasm, laughter, songs, art work and enjoyment that created the homely feel for all the new teachers. It was a key to navigate friendly relationship with everyone.

Voice Your Imagination on Nature

Rapturous Recitation

"Real learning comes about when the competitive spirit has ceased."
-Jiddu Krishnamurthi

Besides just bringing joy to kids, poetry can aid their cognitive development to understand the patterns, enrich the vocabulary and remember information and have fun at the same time. As an integral part of CCA activities English Recitation Competition was organized for the 1st and 2nd grade youngsters in online mode on the theme of Nature. The tiny tots presented themselves with nourishing poems in the attire of nature with alluring props. Each student enjoyed the moments and made it memorable. The final round was conducted on 16th June 2021 and the winners were selected by the honourable judges-

Mr. Shivappa, PRTK V Donimalai.

Mr. Bhanu Prasad, PRT, Educational counsellor, KV Donimalai.

Discerning Debate

"Don't raise your voice, improve your argument."

-Nelson Mandela

Debates provide experiences that are conducive to life changing, cognitive and presentational skills. Debate teaches the skills of reasoning, researching, organizing, and presenting information in a compelling fashion.

Jindal Vidya Mandir, Vidyanagar had organized Debate competition for Grade VI-VIII on the following topics for preliminary round based on the current issues such as-

- 1. Human activities are the only reason for Climatic Change-grade VI.
- 2. Is the school closure necessary to prevent the spread of the virus?-grade VII.
- 3. Is universal testing of Covid-19 a divert and waste of resources?- grade VIII.

And the common topic for Final round was "Is Media genuine enough in this

Pandemic to be Reliable?

Students participated with huge enthusiasm and optimistic thoughts while presenting their arguments and the event was fruitful.

Key Take Away: Freedom is hammered out on the anvil of discussion, dissent and debate.

Parent-Teacher Meeting

Parent-Teacher meeting is a great opportunity to share academic and co-curricular progress of the students to their parents. Jindal Vidya Mandir, Vidyanagar organized Parent-Teacher meeting, to elucidate the mode of examination, submission of answer scripts and clarified the queries regarding exam pattern of Periodic Test 1, on 25th June 2021. The session went really well and queries were addressed.

Hearty Congratulations

Master Sumedh S S, a brilliant feat, secured Fourth rank in Karnataka state in the National Talent Search Examination (NTSE). It conducts two papers namely, Mental Ability Test (MAT) and Scholastic Aptitude Test (SAT), each for 100 marks. Sumedh's score in MAT: 92 and SAT: 91, which gave him a total of 183. He stood first in Bellary District and is qualified for the second level.

Lasya Yanamadala of grade 2 secured 1st Rank in NSTSE conducted by Unified Council.

Miss Dithya Medikonda of LKG participated in National level for Phonics and Art and won 'Prathibha Samman Golden Peacock Award 2021.'

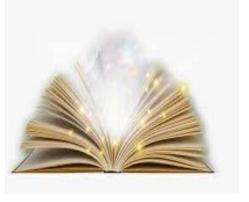

Kavyanshu Sahu of grade 2 took part in Unified Cyber Olympiad and received appreciation letter from Unified Council for his excellent performance and secured 1st Rank at Zone 4th Level, 104th rank in National Level.

Teacher's Feat

Writing is a platform for the budding writers to put their best foot forward to be recognized as writers. One such writer and the poet is amongst us. Dr. Sivaleela Lokesh, Kannada teacher, is the one who excelled in her writings in all the genres. Her Ph.D Thesis on 'Kamalapura A Historical View' got published recently. It is a proud moment to all the JVMites.

From Editorial Board.

It is indeed a matter of pleasure that Jindal Vidya Mandir, Vidyanagar is ready to showcase its achievements, services, celebrations and innovations through "Communique". In this issue, the editorial team has shown its colour, rigor and creative views. "Health is Wealth" is aptly used here because Jindal Vidya Mandir management committee took care of all the teaching and non-teaching staff and everyone has been vaccinated to fight against Covid-19. Aristotle once said, "Educating the mind without educating the heart is no education at all." The world today is changing at such an accelerated rate and we as educators need to pause and reflect on this entire system of education. The educators have responsibility to prepare their children to face the challenges that future holds. In this direction Jindal Vidya Mandir, Vidyanagar had vibrant inaugural ceremony of 18 clubs on 30 of June, 2021 with great inspiration and support of Principal and staff. It was Margaret Mead who said "Children must be taught how to think, not what to think" Madam Sangita Jindal ji, the honourable chairperson, JSW Foundation launched MCB App. The inauguration of MCB App is another feather for students and teachers to face the challenges in the present scenario. This edition helps readers to have insight for new inventions and discoveries.
