**Challenges are what makes life interesting and overcoming them is what makes life meaningful.**

**Joshua J Marine**

**Objective:** To create an inclusive digital experience for children to explore their curiosity at their own pace, imagine the near and far future. MuSo, an initiative by JSW, bring in learning to life with fun, hands-on real-world challenges for kids.

Dear Students and Parents

Greetings of the day!

We are pleased to inform that the school has taken up Museum of Solutions (MuSo), an initiative by JSW to give children a chance to be responsible global citizens. The children will discover real- world challenges, do hands on activities off- screen, make creative solutions, share their ideas and reflect on their learning. They will develop new skills through a series of self-led activities that encourage off screen learning using easily found materials at home.

Children need to be active participants of the future not passive recipients of it. At MuSo.d, they are presented with opportunities to build awareness and take action in their own homes and communities.

The school invite names of interested students from grade 5<sup>th</sup>, 7<sup>th</sup> and 8<sup>th</sup> to enroll themselves for MuSo. Interested students are requested to give their names to class teacher on or before 7<sup>th</sup> December 2021.
