Principal's Desk

Jindal Vidya Mandir, Vidyanagar, is an institution where 'Every Child, every day is a leader, they are empowered to learn in their own way and find their destiny. JVM is just 'home away home' to the child. Here the students get an opportunity to learn, make friends, discover interests, and participate in collaborative activity as well as healthy competition. It is not the ambience of the school, which comprises Labs, Library and Huge Playground, that attract the students, but it is in the minds and hearts of the students and staff that the true institution exists. JVM provides good facilities along with a conducive environment and a dedicated faculty to help our students realize their potential and eventually find their niche in the world.

While every child is unique, each one must leave the portals of the school with strong ethics, good communication skills, a respect for the points of view of others, and a deep affinity for nature of which we are a part and on which we depend. With this in mind, our goal is to send forth confident and socially conscious individuals who embrace the world with all its opportunities and challenges but know where they belong. With the combined efforts of our dedicated teachers and support staff, we are confident that JVM, Vidyanagar will continue to evolve in the direction of making these convictions visible in our curriculum and pedagogy. I am confident that our students will work hard for positive change in this strife-torn world. Look forward to yet another successful year ahead

General Guidelines to Parents / Guardians

The school believes in firmness. Disobedience and disregard to rules will be looked at seriously. In light of common sense or of good manners, any work or action likely to lower the image of the school is regarded as a breach of school discipline. The school reserves the right to expel students whose diligence or the progress in studies is considered unsatisfactory or whose conduct is harmful to other students. Immorality, insubordination or contempt of authority and breaking bounds are always sufficient reasons for immediate expulsion or rustication.

1. Parents are required not to enter the class room to see their child or teacher during class hours without the permission of the Principal. Kindly stick to visiting hours as announced from time to time.
2. They are required to inform the school if there is any change to their address / telephone number etc.
3. Leave for half day should not be asked for security reasons. In emergency written permission must be taken from the Principal and the class teacher should be informed.
4. All leave applications should be sent in advance before proceeding on leave. Application should be addressed to the Principal through the class teacher.
5. Children, when sick, should not be sent to school to attend tests / classes.
6. Parent's attention is drawn to the fact that criticism of the teacher or school in the presence of the students should be scrupulously avoided because it causes the students lose respect for their teachers and will retard their progress.

7. Should there be any legitimate complaint, please see the Principal at once or write a separate letter addressed to him/her. He/She will look into this matter personally.
8. Any communication made by the parents / guardians should be addressed to the Principal through the class teacher.
9. Parents are requested to pay fees (if not deducted from salary) regularly on or before given dates to avoid penalty.
10. The name, admission no., class, section and house of the pupil should be clearly marked on the belongings of the students e.g., ties, jerseys, skirts, pants and shirts, water bottle, tiffin box etc.
11. Parents are required to co-operate with the school in its attempt to help their wards' progress by paying attention towards their regularity, punctuality & discipline and by taking interest in their work. They should check the diary every day and note the home work and other instructions given. In case of small children, they are advised to check the bags of their wards to see if any notice / invitation etc. has been issued.

Bringing mobile phone to school is strictly prohibited.
15. All students are expected to join the school on the noticed dates at the beginning of the term. A fine of Rs. 10/- per day of absence is imposed unless the Principal is informed before the end of assembly, on the last working day. Parents and guardian will appreciate that absence during the term is not in the best interest of the student. They are asked not to apply for leave if it can be avoided.
16. The wards of those parents, who avoid meeting the school authorities when advised to do so, may not be allowed to attend the classes.
17. Parents should refer the school calendar, date sheets and other circulars before making enquiries.

Special Supplementary Classes

“Mentoring is a brain to pick, an ear to listen, and a push in the right direction”

More beneficial reasons for implementing supplementary education include providing pupils with opportunities to develop self-confidence and higher aspirations, learning core content that may not be covered in regular schooling due to a variety of constraints that teachers regularly encounter, and research based.

Supplementary education can also be extremely valuable for those trying to prepare and secure their place at a selective school, as tutors will accommodate every learning need necessary; from entry requirements, to specialized curriculum. More beneficial reasons for implementing.

Supplementary education includes providing pupils with opportunities to develop self – confidence and higher aspirations, learning core content that may not be covered in regular schooling due to a variety of constraints, and research – based teaching strategies that create additional opportunities for those with learning difficulties.

Unlike school, supplementary education does not only convey to the traditional classroom settings, but it can also cover online classes and Saturday school when necessary. Less formal, and shorter, varying classes enable pupils to have a maximized capacity to both learn and focus, furthermore changing individual attitudes and approaches towards education. As we can see, traditional schooling methods have been badly affected by the pandemic and because of this, more schools implement online classes as an alternative. Teachers and governing bodies are now more open to a less structured curriculum and have gained a new – found appreciation for supplementary education.

It is understood that students will forget what you said, students will forget what you did, but students will never forget how made them feel. If we see a successful individual and we can see someone had real positive influences on his or her life. That is where the role of mentor becomes critical who can influence many lives in positive direction. A mentor is someone who sees more talent and ability within children, than children see in there self, and helps bring it out of them

Cultural Exchange Program

A student exchange program is a program for students from a secondary school. A student exchange program may involve international travel, but does not necessarily require the student to study outside their home country.

Cultural exchange provides an opportunity to explore other cultures, traditions, customs, beliefs, societies, languages, and much more. Hence, such opportunities make you view the world with a different lens. This provides alternative perspectives! It broadens one’s horizons and increases the tendency of acceptance.

Cultural exchange program brings awareness of own culture. Cultural exchanges allow an individual to experience the interesting cultures and provides an opportunity to understand their own cultures and traditions. This program lets students to interact with and learn from people who are different from themselves.

ABRAHAM LINCOLN'S LETTER TO HIS SON'S TEACHER

He will have to learn,
I know,
that all men are not just (fair),
all men are not true.
But teach him also that
for every scoundrel
(dishonest) there is a hero;
that for every selfish politician,
there is a dedicated
(committed) leader..
Teach him for every enemy
there is a friend.

Steer him away from
envy,
if you can,
teach him the secret of
quiet laughter.

Let him learn early that
the bullies are the easiest to
lick... Teach him, if you can,
the wonder of books...
But also give him quiet time
to ponder the eternal mystery
of birds in the sky,
bees in the sun,
and the flowers on a green
hillside.

In the school teach him
it is far honorable to fail
than to cheat...
Teach him to have faith
in his own ideas,
even if everyone tells him
they are wrong...
Teach him to be gentle
with gentle people,
and tough with the tough.

Try to give my son
the strength not to follow the crowd
when everyone is getting on the band
wagon...
Teach him to listen to all men...
But teach him also to filter
all he hears on a screen of truth,
and take only the good
that comes through.

Lincoln
was the
16th
president
of the
united
states
and one of
the great
american
leaders

Teach him to close his
ears to a howling mob
and to stand and fight
if he thinks he's right.
Treat him gently,
but do not cuddle him,
because only the test
of fire makes fine steel.

Let him have the courage
to be impatient...
Let him have the patience to
be brave.
Teach him always
to have sublime (inspiring)
faith in himself,
because then the will have
sublime faith in mankind.

Teach him if you can,
how to laugh when he sad...
Teach him there is no shame in tears,
Teach him to scoff (ridicule) at cynics
(sarcastic people)
and to beware of too much
sweetness...
Teach him to sell his brawn (strength)
and brain to the highest bidders
but never to put price-tag
on his heart and soul.
