MISSION PANDEMIC @JVM Kalmeshwar

The first case of COVID – 19 appeared in Wuhan in China in later 2019 & the corona virus gradually appeared at the national border in December 2019. Till the time we were busy in reading international news about this virus affecting life of many. And we didn't realized when it reached at our door step. It was a sudden shock for every Indian & there was zero preparedness of how to tackle the situation. This pandemic has drastically altered the learning environment of students nationwide, resulting in disrupted education for students. So JVM was also not an exception for that.

As our vision is Every Day Every Child A leader! The JVM family stood tall and united to cope up with the pandemic challenges.

We prepared our teachers from the scratch, as technology was a challenge for most of them. Though we used technology every now and then in the form of TV, electric gadgets etc. We are also handy with our mobiles and other social media. But when it came to use technology for teaching it was a new normal. So it was like mission technology at the initial stage and parallely we also had to console the parents and students by making them mentally fit and being ready to accept this challenge of new normal and get tuned to the environment. One of the best platform used was Google Classroom to support parents in streamlining information by creating one place for all the assignments, schedules and expectations .

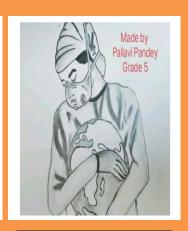

As a team we worked on customizing syllabus, assessment, daily teaching schedule. After we were ready with our set of work we started preparing our children & parents for online classes by conducting orientation sessions. Overnight, the traditional classrooms of JVMs transformed to virtual classrooms via latest technologies and teachers were prepared to use teaching learning virtual platforms like Zoom, WebEx, Google meet, Google classroom, Jam board, etc and the traditional teacher has become a virtual teacher. And this is how the journey began...!

> Inter Class Poster Making Competition:

Age is not a barrier to understand what is going in a person's mind....! Though the schools were physically closed but it was important that children continue to participate as participation is more important in building of wholesome personality. So considering the need for spreading awareness of Covid – 19 JVM had organized the Inter Class Poster Making Competition wherein the participation was over whelming.

Everyone is An Artist:

Miss Swara Satone of Grade VII participated in Art Challenge Program organized by MuSo (Museum of Solutions). She completed the task on time and was happy to share her thoughts. Swara says "It was amazing experience to participate in such a creative concept during lockdown period."

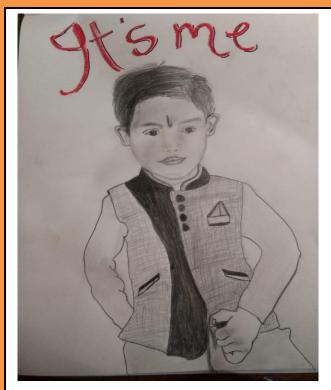

Mast Raghwan Khatediya of Grade VII also participated in the program.

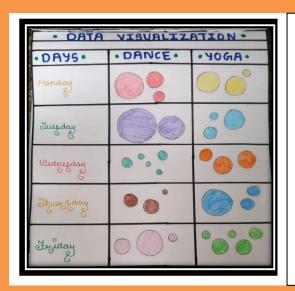

He says, "It was a great opportunity given by our school to share my art on such a huge platform."

More Creations from Students:

Mast Darshan Kanoje says, "This opportunity gave exploration to my thoughts and my art."

Miss Srujan Mahajan of Grade VII also participated and enjoyed the program a lot. She says, "It was a fun doing the task and I got a chance to explore my own creativity. Thank you for providing such a wonderful platform"

> International Yoga Day Celebration:

Though the school was physically close International Yoga Day was celebrated virtually on 21st June 2020. As it rightly said " **Health is Greatest Wealth**' and to ensure the healthy life style to our students, parents and teachers, the sports faculty Mr. Govinda Pal encouraged parents through what's app to perform Asanas and follow healthy habits.

> Independence Day Celebration

Independence day was celebrated by following certain Covid 19 protocols in the school premises.

Students of grade II also shared their hope and positive energy through a video on how - This time shall also pass and everyone will smile again with their heart and soul open.

> Proud Parents of JVM :

My both wards are studying in Jindal Vidya Mandir, Kalmeshwar. I am extremely happy and satisfied with the school. I feel JVM is a perfect platform for my children's overall development. They are not only promoting the academic development but are also emphasising on co-curricular activities, sports, value education to the students by conducting congloms and other collaborative activities. Moreover in this covid pandemic time they managed the online education systematically. The teaching faculty comprises of qualified, supportive and amazing teachers. The principal mam is always there with better plans for school and ensures smooth running of the school. I feel proud that JVM got the award of "the upcoming school of the year from Maharashtra." When our family was a victim of covid 19, my children's studies were not affected due to online education. Thank you for training the future leaders in a better way and giving abundance of opportunities to them.

Hello, I am Manoj Raut, parent of Ms. Shreya Raut. Due to COVID-19, schools were closed, students were worried. The school conveyed message to students and parents to handle situation carefully. School provided worksheets to the students to cope up with online study. It took initiative by providing educational videos through Whatsapp. For Concept clearance the school provided assignments and worksheets. With every problem, it came with solution in this case, the solution is technology. With the help of technology for the betterment of the students, they are conducting online classes through Zoom application. From 13th December, 2020, the school has been opened for the teachers and students. In this situation, teachers, management were on their toes to provide safety to the students. School is following all the guidelines given by Education Department for COVID-19. I appreciate the efforts taken by the school. I also want to thank the teaching faculty and principal Pallavi Dadhe mam for their work.

First of all thanking you all the teachers for arranging online classes in this Pandemic. Various activities are provided in Zoom online classes by school. It is like physical classes are going on. All parents feel that every teacher is paying attention to every child. Bridge assignments are posted in Google Classroom as well as Class Whatsaap group on regular basis. Class tests and Exams are also conducted nicely through Google Forms. Teachers get interacted with the students and congloms are also conducted by them. Through videos, power point presentations and other different tools, the chapters are made easy understandable and attractive. Now a days teachers are coming to school daily and taking online classes from there. Recently, the school received the "Upcoming School of the Year" award in Maharashtra region.

Ayushma Mahure (X)

This Covid time had once again shown me how important our health is. Its important to be fit mentally and physically. In this pandemic period, I missed my friends and teachers. I miss my school and the daily routine. Now when the schools are open, we have to take extra care of ourselves by following all the protocols of wearing mask and following social distancing.

And I promise to do so.
