### From Principal Desk :

### TEACHERS AS SUPERHEROES !

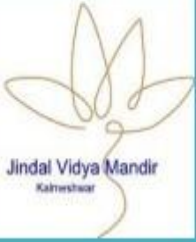

The month of September, marks the birth anniversary of Nation's second President Dr Sarvepalli Radhakrishnan, who was also a teacher par excellence. His students once visited him seeking permission to celebrate his birthday, to which he urged instead of his birthday, celebration and recognition are required towards the teachers of the Nation. Therefore, since 1962, we celebrate his birthday as Teacher's Day to honour the teachers. As rightly quoted, the destiny of the Nation is shaped in its classrooms! The classrooms are the temples of learning where the teachers are the heroes who promote learning and their influence goes a long way in collaring the attitude of children towards education and career. The schools is considered to be a second home for the children, in that context, the teachers then are the second parent of the children. The educational institutions are the premises where the child spends a qualitative years during which the majority of growth and development occurs and hence the very foundation of the child's knowledge, attitude, skills and morality are laid with the help of school experiences under the guidance and with the support of their teachers. A teacher therefore plays a crucial role in shaping the overall personalities of the children creating an everlasting impression, and in return expects to see them growing as confident and compassionate human beings who would add value to the Nation! UNESCO declared the Teacher's day theme this year as "Teachers at the heart of the education" to recognise the role of teachers in making education available to many in the unprecedented times of Covid 19.

**Happy Teachers' day to the Superheroes!**

We have celebrated our National Nutrition Week with the theme. **FEEDING SMART, RIGHT FROM THE START.** It focuses on choosing the main source of nutrition and is required to explore the nutritious food options provided by our mother nature. On this occasion the students of Jindal Vidya Mandir were given various tasks of consuming nutritious food items every day in this week to make them aware of the importance and benefits of nutritious food. The students were asked to devour some food items which are rich in carbohydrates, proteins, vitamins and minerals. Webinars were conducted for two days where the students were informed about the 'Low cost nutritious food' wherein they were told about the benefits and easy availability of the same and also some healthy recipes were discussed in the session. There was an overwhelming response from students as well as from the parents. The programme was a combined effort of the teachers Mrs. Soma Bhowmik, Mrs Harsha Gotmare, Mrs Prity. Bais and Mrs. Nidhi Wankhede .The session was organised under the guidance of CCA in charge Ms Chetna Joseph. The purpose of commemorating this event is to educate people about the science of consuming the right food. It is granted that technology has opened the door of new learning and has also changed the course of education. But a good teacher has the power to change our life, ignite us in the most perfect way. All over India, Teacher’s Day is celebrated on 5th Sep every year for showing due respect to all the teachers in the country.
