From Principal's Desk:

Let's March on and March Forward...

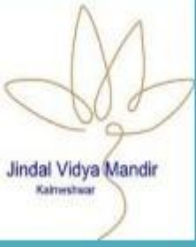

School reopening is the highlight and the celebration which is awaited by teachers and students alike; teachers can't wait to gear up for the upcoming session and students look forward to spend some time with their classmates. The session commenced during the month of April 2022 with a brief recess to avoid the summer scorching heat of May; resumed and welcomed even with the calming winds and moist rains of June. I wish my dear students, a happy and humble beginning to the current academic year with hopes that the summer vacations did prove to be a productive break for them to gear up and stand determined for their upcoming journey of learning and embark upon this ride with hopes, dreams, energy and sheer determination to surpass all their past achievements and soar through greater heights both academically and personally. I express my warm wishes to the top scorers of Grade X students who proved once again that to mine for Gold you have to tread through the Rocks, this winning attitude and hard work is the culmination of their success in their Board exams with the help and guidance of their teachers, the support of their parents and the sheer will to excel themselves. I wish that my children strive to carry the torch further into unbeatable standards and hope for pleasant moments to cherish and proud moments to celebrate this point forth. I extend my warm welcome to the newly inducted members into the teaching fraternity of JVM family.

Heartiest congratulations and Warm Welcome..

Principal

Icebreaker – ‘Congenial and Team Building’:

Every new place, people or environment makes one feel hesitant or nervous making the process of adaptation slow. In contrast to it, in the known environment, we feel accepted, engrossed and motivated. JVM school conducted congenials to accord warm welcome to the newly joined members and thereby helped them getting acquainted with the school environment and the various functional processes. Nothing works better than a Congenial for breaking the ice among group members. It compels everyone to groove together and pair share. The congenials were conducted by the Principal C. Pallavi who later briefed the team about the Vision and Mission of the institution. She also apprised the team on Standard operating processes prevalent in the school and their relevance.
