From Principal's Desk:

Be in the learning mode!

Dear all,

Real education is just not about completing the given academic course followed by its assessment and certification. The continuum of education involves day-to-day learning that adds to one's experience of socio-emotional and cognitive development. Learning is not confined to core subjects but majorly includes the inculcation of values, life skills, and overall competence.

I am happy to share the wonderful experiences our students have engaged in recently. One standout moment was the educational excursion to Mumbai which opened up new avenues of learning for the students, allowing them to explore beyond the classroom.

At the Museum of Solutions, students immersed themselves in innovative exhibits that challenged their thinking and creativity. It was inspiring to see their curiosity come alive as they discovered real-world applications of their studies.

The visit to Nehru Planetarium was equally exciting, sparking interest in astronomy and igniting dreams of future careers in science.

Additionally, the students had the unique opportunity to interact with scientists who shared the journey of becoming a scientist and encouraged the students to pursue their passions and think outside the box.

The enthusiastic participation in interschool competitions and enjoyable fun activities during Children's Day truly added a special touch of joyful learning. These events fostered teamwork, creativity, and a spirit of healthy competition, reinforcing that education is about growth in every aspect of life.

As we reflect on these enriching experiences, I am reminded of how crucial such activities are in shaping well-rounded individuals ready to face future challenges.

Let us continue to encourage our students to seize every opportunity for learning, both inside and outside the classroom. Together, we can cultivate an atmosphere where education goes beyond textbooks and prepares our young minds for a brighter future.

Warm regards,

Pallavi Chakkilala

कहते हैं जो निराश है वह निर्जीव है और इसलिए ही निराशा से घिरा हुआ मनुष्य संसार में बिना पंखों के पक्षी की तरह दयनीय एवं दुखपूर्ण जीवन काटता है । अक्सर हम यह तथ्य भूल जाते हैं कि संसार में ऐसा कोई व्यक्ति आज तक पैदा ही नहीं हुआ है जिसके जीवन में विपत्तियाँ और विफलताएँ न आई हों । विफलताएँ मुसीबतें और असफलताएँ तो सिर्फ यह जानने के लिए ही आती हैं कि व्यक्ति किस हद तक अपने भीतर साहस संजोए रख सकता है । जिन्होंने हर कठिनाई को एक चुनौती माना उनके लिए इस संसार में कोई अवरोध है ही नहीं । मसलन छात्रों को आए दिन अध्यापक के पूछे प्रश्नों को हल करना पड़ता है तभी तो उन्हें उत्तीर्ण होने की प्रतिष्ठा प्राप्त होती है। अतः हमें यह समझना चाहिए कि अवरोध तो एक प्रकार का अध्यापक है जो हमारे भीतर छुपी प्रतिभा को विकसित करने के लिए उत्तेजना प्रदान करता है और चिरस्मरणीय सफलता वरण कर सकने की क्षमता से हमें सुसंपन्न बनाता है । इसलिए ही कहा जाता है कि जो व्यक्ति कठिनाई के दिनों में आशावादी रह सकता है उसे संसार की कोई भी मुसीबत नीचे नहीं गिरा सकती । एक कोने में मुँह लटकाए बैठे रहने से और नैराश्य पर अपने मन को केंद्रित किए रहने से मनुष्य इतना नकारात्मक हो जाता है कि छोटे से छोटा काम कर सकने में भी वह शंकाशील रहता है और काम में हाथ डालते ही उसका पहला संकल्प यही उठता है कि मुझसे यह कार्य नहीं हो पाएगा । यह नकारात्मक भावना इतनी अशुभ होती है कि वह किसी भी कार्य को न तो सफल होने देती है और न पूर्ण । अतः हर छोटे-मोटी बात में निराश होकर बैठ जाना जीवन जीने का योग्य तरीका नहीं है क्योंकि हर रात के बाद सवेरा है ही अतः अपने भीतर आशावाद को जगाए रखें और निराशा रूपी नकारात्मकता से खुद को बचाकर रखें ।
