From Principal's Desk:

Embrace Change, Grow, and Learn!

A warm welcome, dear children!

As we step into this new academic year, we encourage each of you to be ready to embrace change and grow your capacity to learn and evolve. This isn't just about new textbooks or different classrooms; it's about a fresh mindset, an eagerness to explore new ideas, and a willingness to step outside your comfort zone. The world around us is constantly changing, and your ability to adapt, learn, and evolve will be your greatest asset.

Remember, every experience leads to learning. Whether it's a challenging problem in math, a captivating story in literature, a new sport on the field, or even a simple conversation with a friend, there's a lesson to be learned. We urge all students to avail opportunities to learn. Participate actively in the newly introduced Innovative project of the school called "Research based Learning". Investigate, ask questions, be curious, and don't be afraid if you make mistakes, correct it and move forward and share your findings with the larger groups.

This year promises to be filled with countless opportunities for you to expand your knowledge and develop communication skills as you immerse yourself in Research based learning. We are here to support you. Let's make this session a truly memorable one, full of learning, laughter, and personal growth. Welcome back!

Hearty Congratulations to the grade X students, their proud parents and teachers for the excellent board results.

And best wishes to everyone.

Pallavi Chakkilala
Principal
