

JINDAL VIDYA MANDIR, SHOLTU

06.03.20

Dear Parents

As a school, we would like to be prepared against the spread of **Corona Virus**. We request you not to send your wards to school, if they have any symptoms of **cough/cold/fever/throat infection** and we have advised the same to whole teaching and non-teaching faculty. As a precautionary measure, we will be more vigil and insist children to wash their hands properly during the breaks. Children are free to wear mask & bring sanitizer. At the school we will be increasing the physical checks & if found any child with the above mentioned symptoms, we will be asking the concerned parent/guardian to take the child home immediately for Doctor's advice. We are closely monitoring the situation & will keep on updating you in case of any further change in situation.

It is best to be safe and take adequate precautionary measures. We expect your full cooperation.
