Certificate regarding Transportation Facilities in School

This is to certify that school is not providing any kind of transportation facility to the children or teaching faculty and not hired any private bus/taxi/cab to pick and drop the children. Presently most of the children are coming to the school on foot from the adjoining areas & others are dropped & picked by their parents/guardians. School Management will adopt the guidelines as directed by state education board/Honourable Supreme Court if in near future transportation facilities provided to the children.

Principal, JVM Sholtu
